

Where is Nessy?

Brewongle EEC staff visit your school to deliver a rich student led program. Your class will engage in a creative, scenario-based investigation where they will help locate our missing blue tongue lizard on your school grounds.

On the day students will participate in:

- **Blue Tongue 101:** Learn about blue tongue lizards and what all living things need to survive.
- **Exploring Habitats:** Use the IWB to construct the perfect habitat for Nessy then search for a similar place in your school. Find that perfect place and assess it.
- **Invertebrate Hunt:** Search for one of Nessy's favourite foods - juicy, delicious **BUGS!**
- **Create:** Make a unique artwork that contains some of the day's learning about blue tongue lizards.

New Syllabus: Science & Technology – **Natural Environment;** Substrand - **Living World**

Cost – flat day rate = \$500.00

Maximum of 60 students
